4   

Please read the description under the video first! I had to disable comments and remove comments on this video due to incredibly stupid people who made nasty comments due to their stupidity! UFO does not mean alien, extraterrestrial, spaceship or anything other than unidentified flying object! (UFO), Let me rephrase this.... there was an object...it was flying.... did not recognize what the object was...unidentified flying object...(UFO). I don't want you to think I'm an ass...but I have had death threats because of this video! If you make a hate comment, I will report you to the Youtube Admin.

Aircraft and Ufos Channel 11 months ago

mjlstudios1 I have videos with over a million views. I let the comments go. 1st because I love to see ppl write stupid things 2nd because ppl start to argue and it's funny, 3rd is because comments attract more viewer and that means good things for you. Let them they will leave a stupid comment then move to the next vid and do it again. Nice vid btw

Rosie A 10 months ago

There are unfortunately many stupid people who behave like bad children. You'll find their wasteful remarks on all types of videos.

homeruniverse 5 months ago

Your footage is extraordinarily good and well edited. :) This is a substantial contribution to human knowledge. You shouldn't feel worried about irrational people---no one cares about them later on.

homeruniverse 3 months ago

mjlstudios1 | Fly DJI, do you know why exactly this video has so many hits? Can you see in your YouTube profile where all the viewers came from (e.g. what specific show(s) here on YouTube or somewhere else)?

mjlstudios1, thank you very much for uploading and commenting the footage. This is one of the best cases of these white little UFOs. I have a list of cases here (<http://bit.ly/2l02UQq>) that show occurrences in USA, UK, Switzerland, South Korea, Netherlands, Germany and others.
Did you get any noticeable feedback from MUFON/NASA? I plan to investigate the phenomenon further (I am a PhD student). According to my best judgement, explanations as weather phenomena, animals or artifacts from malfunctioning cameras can be ruled out. Back to the amount of sufficiently similar cases and good reliability.

Couldn't it just be a fly or other insect? There's no sense of scale here.

mjlstudios1 | Fly DJI 10 months ago

Take a look at this video in reverse. It is easier to follow and you can see the distance it travels.

codemiesterbeats 11 months ago

anyone curious about looking at google earth here are the coordinates 35\u00b029'40.17N ----- 77\u00b002'51.30W

codemiesterbeats 11 months ago

Assuming this isnt altered... then its actually quite impressive. I am looking at this exact location on google earth right now lmao I love a good mystery. I can actually see the object before the red arrow overlay is removed.

Vigilant Light 11 months ago

Golf ball? Really? At the height the drone was you wouldn't have even SEEN the golf ball. It would have had to be the size of a soccer ball or bigger to be seen from that height.

LoneWolf_RO 1 year ago

a bit small tho....

doug auld 1 year ago

i froze the vid in a spot where the object was low right hand with a tree behind it. i then screenshot and enlarged . unless a golf ball has three symmetrical bars, two bright equally balanced spots on each bar , all in a rectangular form , well then its not a golf ball

homeruniverse 6 months ago

Would you like to upload the image and link it here?

michael ianni 1 year ago

I believe it's a golf ball coming from the Ayden district park which can be seen in the upper part of the screen at 1:34-1:36. At first glance, I thought I could see sand traps in your video at around 1:35 in the area where the object originates but after using google earth I can see that whatever it is I'm seeing isn't golf course sand traps. (They look more like football\u00a0field bleachers.) Either way, I do believe someone was testing their new set of clubs at the city park that day and got a shot off in your direction. Just my humble and honest opinion upon observation. I've spent the past hour or so trying to nail down this exact area on google earth and finally succeeded by using the water tower on Rt.11 as a land mark. lol Thank you for posting the video.

That could be a possibility if there was a golf course or driving range there. The Ayden Park was about a half mile from where my drone captured this object on video...that would be quite the drive with a lot of bragging rights! The sand traps you saw was a sand volleyball court. Check out the same video in reverse, it will give you a better perspective. <https://youtu.be/gLxleopu9pw>

codemiesterbeats 11 months ago

I actually found it really quickly by the farm house and trees (and triangular shape of the land) also the 4 lane road. I guess I just got lucky. Im curious about this myself lol
coordinates 35\u00b0029'40.17N ----- 77\u00b000b025'51.30W

It's a lot of fun trying to figure these things out. This is definitely one of the best ones I've seen. But it's always good to exhaust all avenues of possibility before slapping on the genuine UFO label. Genuine UFO flown by genuine entities not of this world.....that is. I think MJ is right about the distance on this one as well. Even though it is documented that a golf ball can be hit better than 1500 feet, this thing looks like there's no stopping anytime soon. Too much momentum left in it and I'm not even sure if 1500 feet would cover you from the house to the intersection. I didn't even think to check the distances when I had the area up on Google Earth.

mjlstudios1 I Fly DJI 11 months ago

Genuine UFO label. U = unidentified F= flying O= object period. This has nothing to do with anything alien to this earth. Most people, for some reason attaches (UFO) with extraterrestrial.

BoDiggety 10 months ago

C'mon man. Chuck Norris plays golf too you know...j/k. In all seriousness though, I'm the first to dismiss these quick type of settings on camera as bugs or dust or something blowing through in the wind. I have to say though that, if not altered, this is REALLY interesting. And I'm a photoshop/visual effects kind of guy too. I haven't seen one this impressive in a long time. Definitely a 'wtf'.

Fig 1 year ago

What date/time did this happen, and what is the orientation (N,S,E,W)?

mjlstudios1 I Fly DJI 1 year ago

I was NE on Oct 16, 2016 at about 2pm

codemiesterbeats 5 months ago

here are the coordinates of the location in the video...
35\u00b000b029'40.17N 77\u00b000b025'51.30W
